

# Day 1 - Planning

Monday, 14 February 2022

14:08

We used a Trello board to set out team expectations and working methods

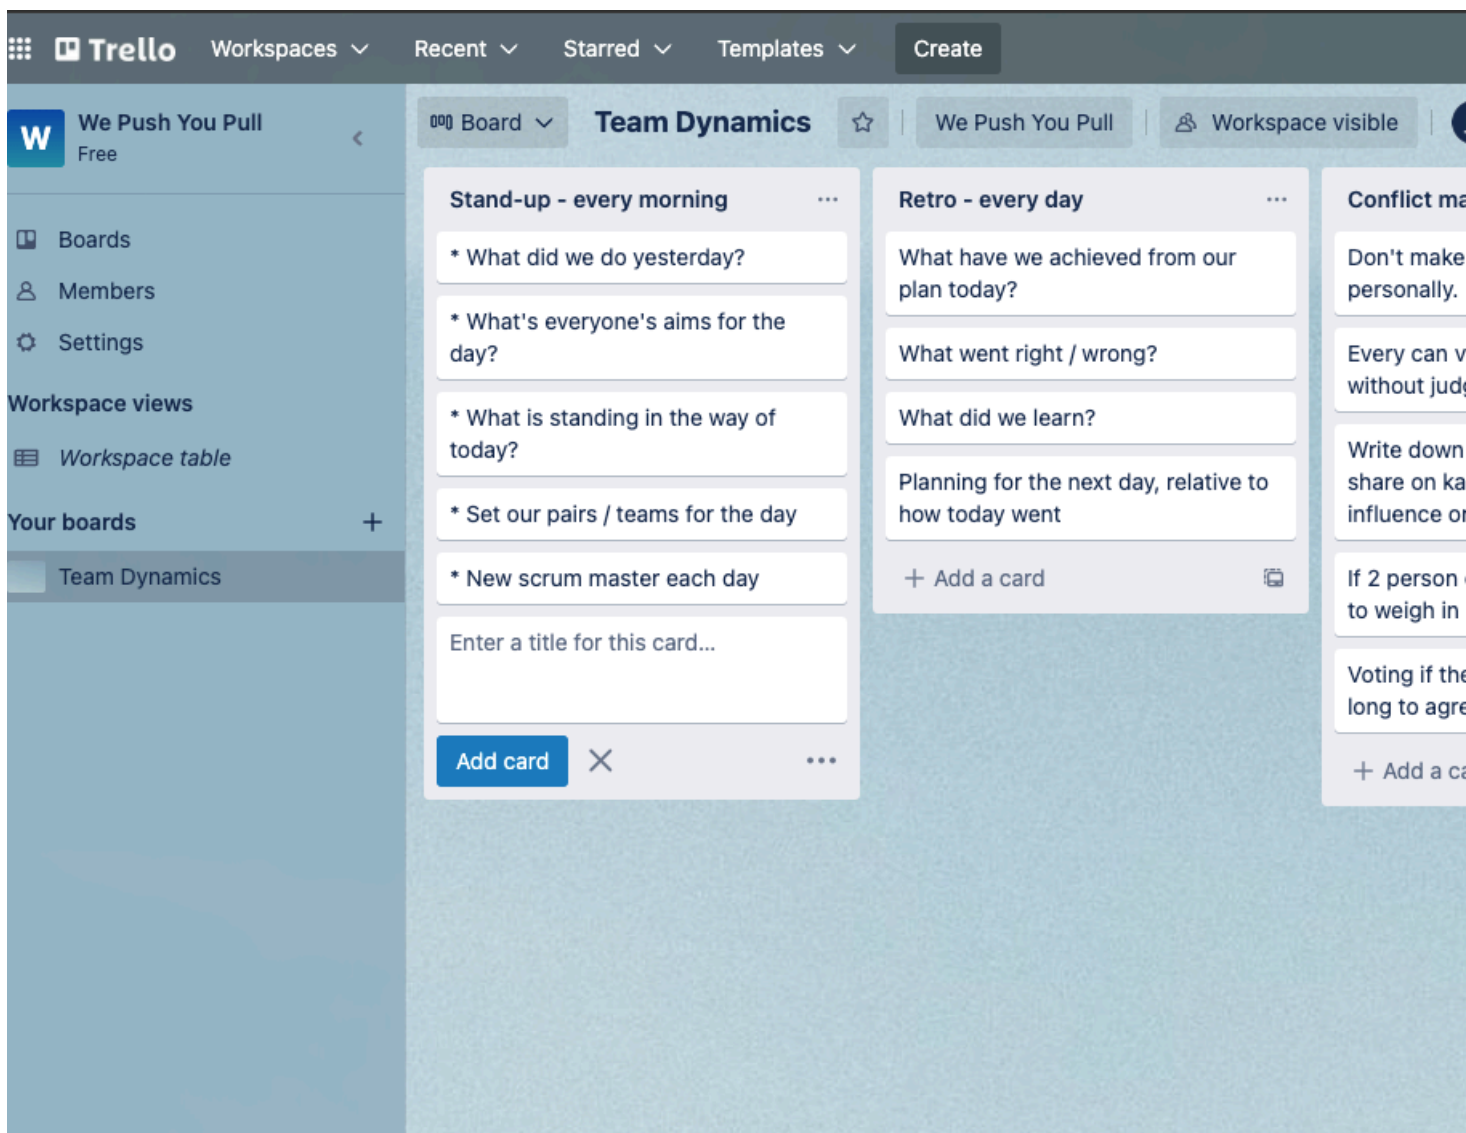

Agile, kanban, day long sprints, stand up and retro each day

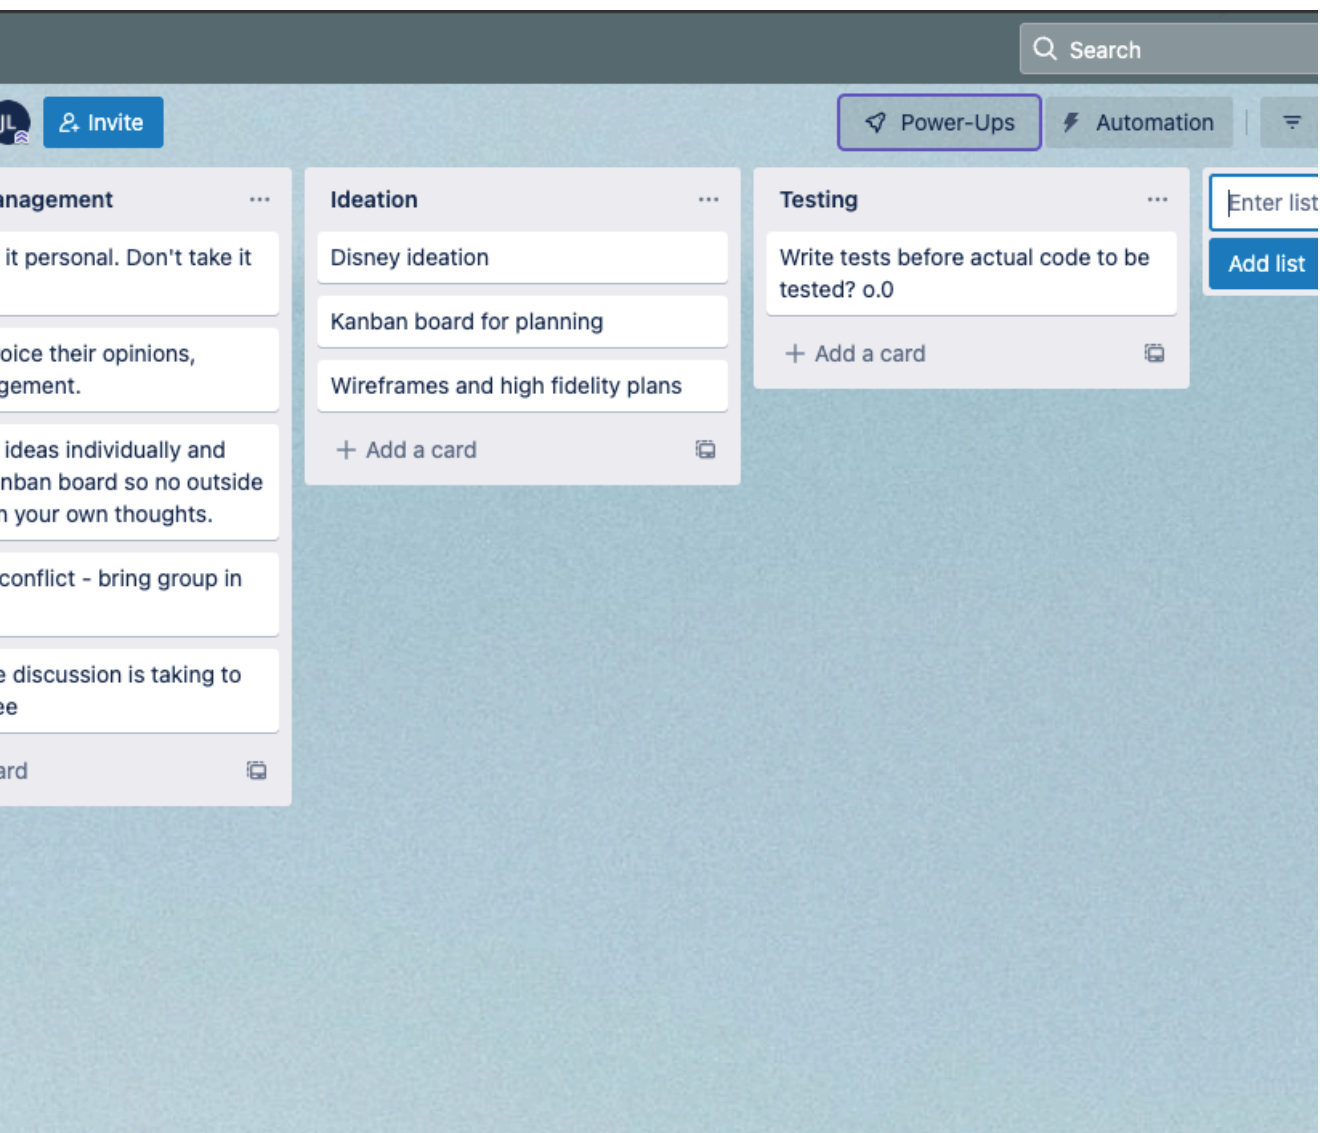

Conflict management and resolution

If conflict not resolvable there is a voting system

Scrum master

Team consensus on pairing issues

We used a miro board to ideate  
First step, list some problems we'd like to solve.

commerce  
platform

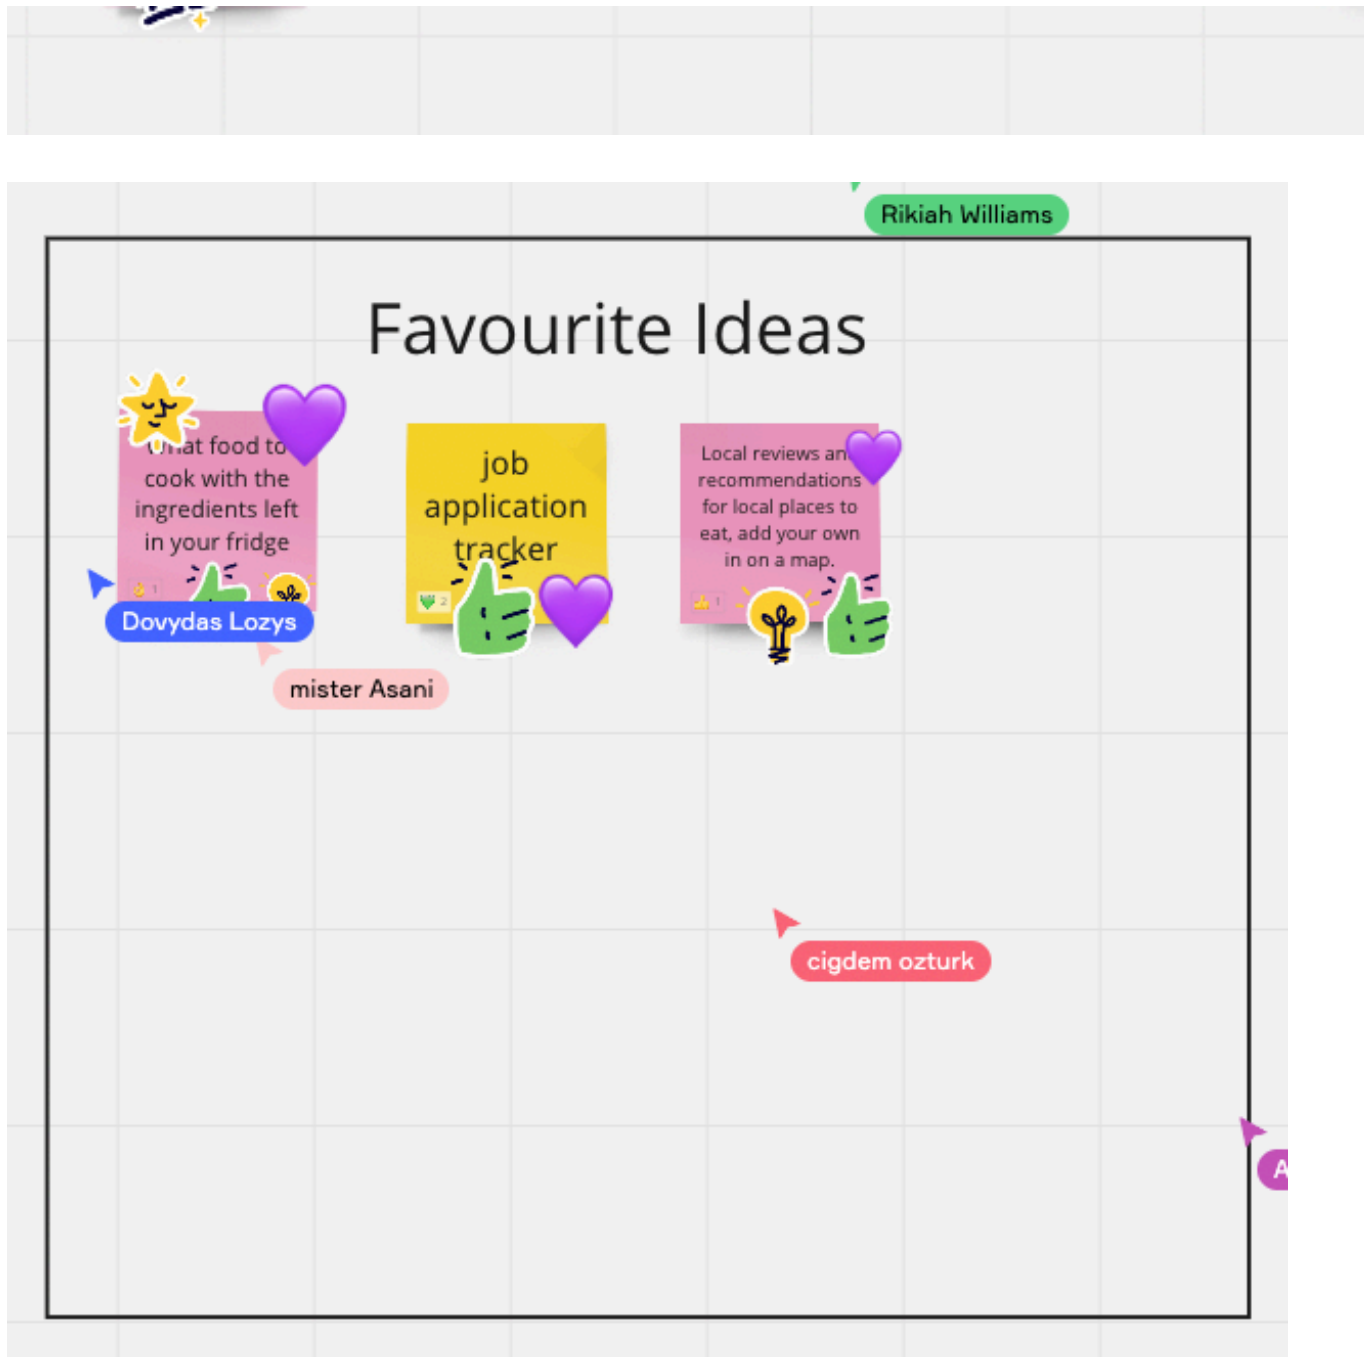

traveling/tou  
rism  
management  
system

investment  
portfolio  
tracking/mana  
gement  
system

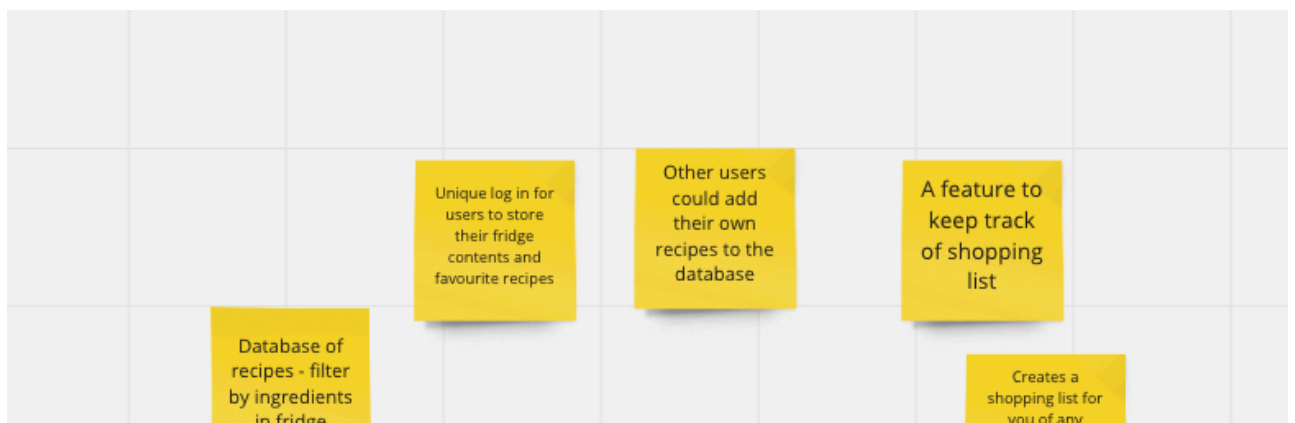

gym  
membership  
managing  
app(web and  
mobile)

problem - knowing  
what to add to my  
shopping list (when  
I'm running out of  
stuff AKA I have 7  
bags of risotto  
rice...)

Put emojis on each idea we liked, then moved the most popular ideas into a favourite. Then spent some time discussing each idea and how we could make a product from it.

ideas box.  
.
